

## MINUTES Web Conference

### Standards Steering Committee November 12, 2018

#### Attendees

Earl Delph, Allegion	Dick Kreidel, ASSA ABLOY
John Cringole, Horton	Kurt Roeper, ASSA ABLOY
Mark Bloom, Spectrum	Robert Strong, dormakaba
Michael Tierney, BHMA	Karen Bishop, BHMA

The meeting was called to order at 11:04 a.m. by Dick Kreidel; the meeting minutes from October 9, 2018 were approved with the addition of John Cringole as an attendee.

New Acoustic Standard A156.42 – As requested by dormakaba, the SSC took up the idea of changing the Scope to apply to cylindrical locks rather than exit devices. Alternatively, Robert said he would be open to covering both products if it was technically feasible. After discussion, the group agreed to open up the Scope to both products for further development.

A draft of a proposed letter to participants in the Certified Products Directory was reviewed. It would notify participants of the upgraded database as well as a need to update testing prior to the changeover. It was approved with suggestions and a request to distribute this month.

The meeting was adjourned at 3:38 p.m.
