A156.5 for Cylinders and Input Devices December 7, 2018

The meeting was called to order by subcommittee chairman Clyde Roberson at 11:03 a.m.; the meeting minutes from October 9, 2018 were approved as written.

Clarifications to 6.6.1 from Allegion were inserted into the draft along with the accompanying illustration.

A long discussion resulted when the 6.6.1 test method for rim cylinders was further scrutinized. Earl offered to elaborate on the test fixturing to clarify

Clyde would clarify verbage in 6.6.2 related to drilling.

The next meeting would be held at the BHMA Winter Meeting in Tampa January 2019.

The meeting was adjourned.
